DETAILED ACTION

Allowable Subject Matter

Claims 6-9, 11-20 and 22-24 are allowed.

The following is an examiner's statement of reasons for allowance: The examiner has reviewed the prior art in light of applicant's claimed invention and finds that the combined claims define over the prior art. The cited prior art does not disclose or suggest a process to form a semiconductor device inter alia the limitations "...patterning the capping layer and the second insulating layer together, such that parts of the first insulating layer that were covered by the second insulating layer are exposed without exposing the mesa regions under the first insulating layer; forming insulating spacers on sidewalls of the second insulating layer such that the second insulating layer is enclosed by the insulating spacers, the capping layer, the first insulating layer, and the substrate; forming a conductive layer on the pair of mesa regions and the substrate so as to fill a contact region between the pair of mesa regions and to cover the mesa regions; removing a portion of the conductive layer such that an upper surface of the first insulating layer, opposite the substrate, is exposed...."

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
